Metric sizes: 500mm and 1000mm lengths. Imperial sizes: 18" and 36" lengths

### Standard Production Material Specification: AISI 01

Corresponding specifications: B01, 1.2510, 100MnCrW4, 90MnWCrV5, 95MnWCr5

We offer a full non-standard size production to customer specification, these 'Specials' can be made to suit size tolerance and are available in most grades of steel. We offer basic stock removal, right through to heat treated semi-finished components. We can offer one offs to full production quantities on scheduled or staggered delivery to suit modern 'just in time' purchasing.
